

You will be able to take up accounting as a career. You'll enjoy an income that is much higher than the average salary and you'll have the ability to work from anywhere in the world. As long as you're knowledgeable and willing, this profession is one worth your time and effort. Your accounting career brings with it a wide variety of opportunities for employment, like working for a private firm or an investment bank, or setting up your own business as a CPA (Certified Public Accountant). With these opportunities at hand, we can all see why it pays off to take up this skill. The following article is an introduction to accounting, providing you with all the information you need to decide if this is something that's for you. Accounting Career Paths Once you decide that this career is for you, there are still many different directions that you can go depending on your interests and the degree of job satisfaction that you want. 1. A professional firm professional firm will offer a great opportunity to increase your salary by working in a busy environment. There are several different types of audits and specializations offered at private firms, including financial statements . You will be working alongside professionals who have years of experience in their own field. 2. An Investment Bank will allow you to gain the skills necessary to take over management of an account or business. You'll be given the opportunity to take advantage of internship programs, like the one offered at Credit Suisse. If you're interested, you may also want to check out investment banking programs at banks like Goldman Sachs, which offers perks like mentor relationships with professionals in the field. 3. A Consulting Firm will allow you to put your knowledge into practice and work alongside experts in your field who can guide you through your entire career path. An internship with a company like McKinsey & Co. can prepare you for this type of career, which involves working with the executives of a company to preserve their investment. 4. A CPA firm is also another option for those who haven't received their degree yet. CPA firms offer short-term training programs that allow you to become familiar with the system and learn how to stay organized as well as take advantage of the opportunity presented by the profession. The training might last from a few months to a year or more, depending on your location and the program itself. 5. Jobs in Accounting - The job outlook for accounting jobs is projected to be positive through 2014, according to outplacement firm Challenger, Gray & Christmas. A study conducted by the Society for Human Resource Management stated that job security is still an issue in this field, primarily because of shrinking revenue, but the demand for CPA services will outpace the supply until 2015. Some of your possible job titles are account manager, auditing manager or accountant. These positions may offer opportunities to work independently or in teams on various projects. Education Accounting education is not mandatory in order to take up positions in this field, but it is highly recommended that you go to college to get your degree and master this important skill. Most large firms require you to have a bachelor's degree and pass their certification tests.
